To access your school webmail account on your Android smartphone / tablet, you need to set up an **Exchange ActiveSync** account on it.

Under Settings, choose Accounts & sync. Press + to add a Microsoft Exchange ActiveSync account.

<mark>or</mark>

Under the <u>Apps List</u>, tap Mail to add a Microsoft Exchange ActiveSync account.

Enter your complete **Email** address (abc@smcc.hk) and **Password**. Press **Next** to continue.

Show password

Choose which type(s) of data you would like to synchronize: Mail, Contacts, Calendar and Tasks.

Choose the preferred **Update Schedule** (Push mail)

	BACK FINISH 2	

Your Android device is now ready to use our school email service.

You may switch to other folders of your email account by tapping Folder under Menu.

Tap **Settings** under Menu to fine-tune the settings.

Note that by default, only 3 days' of email is synchronized (shown on your Android device).

Adjust it to what you'd like under **Sync, Send & Receive** tab.

You can also select the mailbox(es) to be synchronized.

The End
